TO DEFEAT THE WUHAN FLU, WE MUST STOP CHINA

Exposing The People's Republic's plot to destroy the Global Economy

WASHINGTON, D.C.— Disturbing news from China has been dominating the headlines for the past few months. The world now lives in fear that the China Coronavirus will kill millions. But if we want to stop the spread of the deadly virus, social distancing and medicines like chloroquine are not enough. The world, led by the United States, *must not only isolate the virus, it must isolate and punish the source of the scourge: China itself.*

Steven Mosher, one of America's leading China experts, argues that the Chinese Communist Party is responsible for both the origin and global spread of the Wuhan Flu.

This means that everyone who sickens and dies from the virus is a victim of the CCP. Everyone who loses their job or sees their business go bankrupt is a victim of the CCP as well. China not only owes the people of the world an apology, it also owes them trillions and trillions of dollars in damages.

But it is not enough to wait until the pandemic passes for this reckoning to happen. **Mosher** argues that the reckoning must begin now, because China is at present actively and deliberately making the pandemic worse:

- China falsely claims to have eradicated the disease with its own borders. This means that the country will soon experience a second wave of the disease, if it isn't already, which will in turn quickly spread beyond its borders.
- China falsely claims to be a “model” for handling the Wuhan Flu. If anything, its lack of transparency and outright deceit is a “model” of what not to do, and yet it is promoting its deadly failures beyond its borders.
- China is shipping defective face masks, PPE, and other medical supplies to many countries around the world (Spain, the Netherlands, the Czech Republic) that will endanger medical workers, not to mention the public at large.
- China has corrupted the World Health Organization to the extent that this once-respected UN agency has become little more than a mouthpiece of the Beijing Regime, and a co-conspirator in covering China's criminal negligence in dealing with the epidemic.
- China is promoting the bizarre theory that the Wuhan Flu is a “Made in America” bioweapon that was released in China in an act of germ warfare.
- China is currently projecting a façade of international cooperation, but is actively using the crisis that it created to achieve President-for Life Xi Jinping's narcissistic “dream” of world domination.

Steven Mosher, the author of *Bully of Asia: Why China's Dream is the New Threat to World Order*, believes that Communist Party leader Xi Jinping has little interest in helping the world contain the Wuhan Flu. He created the pandemic, and is now using it for his own purposes: to displace America as the dominant power in the world.

Xi dreams of replacing the current U.S.-led world order with one dominated by China. Under the cover of the pandemic panic, he has launched a truly mortal challenge to the United States and the peaceful and prosperous world that America guarantees. Now, more than ever, U.S. foreign policy *must* be consistently and resolutely directed at curbing the dangerous and power-hungry People's Republic of China.
